Johns Hopkins Alzheimer’s Disease Research Center (JHADRC)

DATA CORE – DATA REQUEST FORM

Investigator submitting request: Date: ____/___/___

Name: __________________________________________
Telephone: ______________________________________
Email: __________________________________________

Specific aims and hypotheses of research:
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

Short background on the relevant science:
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

Data requested (provide general description of data domains requested)

NOTE: This form MUST be accompanied by a separate document with: (i) list of variables, (i) variable names from data dictionary, (iii) diagnostic groups for which data are needed. If data for specific subjects is required MUST provide list of ADRC ID numbers. If data for specific visits is needed MUST provide list of visit dates):
________________________________________________________________________
________________________________________________________________________
Proposed analyses once study is completed:

Who will do the analyses?

What is the target completion date for the project?

IRB Approval for project

IRB # Approval Date Institution

Grant Supporting Research (required for NIA Progress Reports)

PI of Grant:  
Grant Title:  
Grant #:  
Grant Sponsor:  
Grant Start & End Dates:  
Total Annual Direct Costs:  

Names and contact information of other collaborators:
How will results be disseminated?
